

***PMT 555BT***  
***BLUETOOTH HANDSFREE KIT AND FM TRANSMITTER***

## PMT 555BT Device Features:

- Bluetooth hands-free kit with built-in microphone.
- Built-in MP3 player and FM transmitter, with full frequency: 87.5-108MHz.
- Supports USB/SD card and 3.5mm line-in function.
- RDS technology (Radio data system), transmit track name and artist information to radio display.
- Charger function, can charge iPhone, iPod and other mobile devices through the USB port.

## Using The Bluetooth Hands-Free & FM Transmitter:

1. Insert the PMT 555BT into your vehicle's cigarette lighter or power port.
2. Tune your radio to an unused FM frequency (between 87.5-108MHz), then match the same frequency on the PMT 555BT by using the buttons on the unit or on the remote control.
3. Bluetooth Pairing:
  - The first time you activate the hands-free function, the PMT 555BT needs to be Bluetooth *paired* with your mobile phone.
  - Turn on your mobile phone's Bluetooth function, then search for new devices "PMT555BT", once found, pair and connect it by using the original password "0000".
4. The Bluetooth symbol on the LED screen will stop flashing after it is connected with your mobile phone.
5. While the MP3 Player is in use, your music will automatically switch to incoming call/telephone state if there is an incoming call.
  - To **answer** calls: Press  button on the PMT 555BT; or press  key on remote controller.
  - To **end** calls: Press  button again; Or press  key again on remote controller.
  - Making calls: Use your mobile phone to dial the number directly.

*Once the connection is established, you can talk to through the PMT 555BT directly.*

**PMT 555BT Infrared Remote Control:**

### **Playing Your Music:**

The PMT 555BT allows for playback of your music via a multiple of external devices such as USB memory stick, SD card, or any compatible audio device (such as a mobile phone or MP3 player) using the included 3.5mm audio line-in cable or wirelessly through Bluetooth.

1. Insert the PMT 555BT into your vehicle's cigarette lighter or power port.
2. Tune your radio to an unused FM frequency (between 87.5-108MHz), then match the same frequency on the PMT 555BT by using the buttons on the unit or on the remote control.

### **Playing Music Via iPhone/ iPod/ Mobile/ MP3 Player:**

3. Line-in function: Use the provided 3.5mm audio cable to connect your iPhone/ iPod/ mobile phone / MP3 player/ external devices with the PMT 555BT. **Please note:** When using line-in function, All functions and playback can only be controlled via the controls on your iPhone, iPod, external device etc. Remember to press "Play/Pause" to stop all music from USB /SD).
4. Play your music via your iPod on your iPhone or mobile device wirelessly once it is Bluetooth paired.

### **Playing Music Via USB Memory Stick/ SD Card:**

5. Slot a USB memory stick or SD card into the ICE Device. It plays and transmits MP3 files automatically. (You have to copy the MP3 files onto the USB memory stick or SD card in advance).
