

Bluetooth Mobile Phone Compatibility List

This unit can support bluetooth specification v1.2 or higher, and compatible with bluetooth profiles such as handsfree or headset profiles. however the functionality may be limited due to some phones' own dedicated interfacing specification.

This list is only updated to the time this list is being printed. This list gives an example of bluetooth mobile phone available on the market, if your bluetooth mobile phone is not on the list, please try it out in practice or try your phone at the local dealer or consult with the local dealer in case it is not mentioned in the list.
